SACRAMENTO, CAL., Dec. 30, 1872.

MESSRS. BAKER & HAMILTON, No. 17 Front street, San Francisco—Gentle: After a three months trial of our Baxter Engine, we are able to speak knowledgeably of its merits. It more than realizes our expectations and is beyond doubt the best thing of the kind ever manufactured. Our Engine (a three-horse power) runs a Hoe Single Cylinder and two Gordon Presses with ease, and apparently power enough left to run as many more. It needs no engineer to attend to it, and makes as little noise while in motion as a sewing machine. We run it ten hours per day at an expense of from 45 to 50 cents per day for fuel. No Printing Office in need of an Engine should be without a Baxter, as it is certainly the "Printer's Engine."

Take Warning!

THE V. & T. R. R. COMPANY ARE anxious to take due precaution against accidents and loss of life resulting from running of their trains; and they take this method of warning Parents and Guardians against the dangers attending the too common practice of Children playing about their Cars and locomotives. Those having in charge the business of the Company find it impossible to restrain boys, who frequent the terminal and stopping places of the road from climbing upon the cars and engines, and they will feel themselves obliged to resort to more decided measures if these annoyances are continued. Recent accidents, which are wholly attributable to the carelessness of persons jumping on and off the cars when in motion, should be warning enough in themselves.

H. M. YERINGTON,
Superintendent.
